FROM OUR FAMILY TO YOURS WELCOME

The Out of School Hours Care (OOSHC) service offers Centre based care for school aged children (aged 4 – 12) for before and after school during the term, and vacation care during school holidays. Its purpose is to create a safe and caring environment where children can freely choose amongst the program of activities.

We would like to welcome you to our service by providing this information booklet for your reference. You will find important phone numbers and important policies, and much more.

If there is still anything you are unsure of after reading through our booklet, then just let us know. We regard highly the valuable input of our parents and please remember that it is our role to provide the type of care that best suits the needs of our families in our community that utilise our service.

As a parent, you can play an important role in ensuring that the Centre provides the quality of care you require for your family. Parents can become involved by communicating with staff, spending time at the Centre, joining the parent consultative committee, donating items and making suggestions for programs and/or activities.

Our Philosophy

Crazy Maze Out of School Hours Care (summarised as KCM & OOSHC):

- Believes that each child has the right to be an active member of the community in which they live, to express their opinions and have their views considered in any decision that may affect them. Our principals will highlight reciprocal relationships in the broader community.
- Believes that the best interests of the children and their right to play, learn and develop in a safe and nurturing environment is the primary consideration in all the decision making at the service and is visible in the actions, interactions and daily work with the children.
- Acknowledges that parents and families are the child's primary nurturers and that respectful collaborative relationships strengthen the capacity and efforts of families and services to support their children and promote each child's health and wellbeing.
- Believes that the right to equitable access and participation in the community is clearly visible in all aspects of service delivery.
- Believes that children have the right to have their individual and cultural identity recognized and respected. We value Australia's Aboriginal and Torres Strait Islander cultures as a core part of the nation's history, present and future. Our practices will demonstrate a respect for diversity.
- Our practices will involve a holistic approach and collaboration with children through a 'Learn Through Play' and intentional edification. Ongoing learning will involve environmental and sustainability awareness and reflective practices and evaluation for wellbeing and growth as reflected in the National Quality Standards and My Time Our Place.

Service Statement

Our Before and After School Care Centre Philosophy has been developed via a combination of our attending families, staff and board member's beliefs, values and community needs. In conjunction with the My Time Our Play (MYOP) framework and National Quality Standards, We aim to provide quality care for school aged children in a safe, healthy and stimulating environment, where everyone is treated as an equal and valued individual, regardless of their race, cultural beliefs, background, religion, sex or ability.

Our philosophy endeavours to create a sense of belonging and foster a 'Free to be Me' attitude. Our 'PLAY-BASED' program reflects these needs and values by providing children with the opportunity for self-expression, self-direction and self-discipline through positive interactions and experiences.

Our programme encompasses a variety of physical, social, creative, multicultural and age appropriate activities to foster all areas of development. This will encourage exploration, discovery, self-esteem and the opportunity to make choices, share ideas and to respect the opinions of others.

Our service endeavours to promote a balanced and healthy eating regime producing a menu that contains each of the five food groups. Staff implement effective food handling and hygiene practices and ensure that the children also follow these practices. Children with special dietary needs and requirements are always considered in our food preparation and provisions.

Parents and community members, along with children are encouraged and welcome to be involved in decision making, programming, planning and evaluation of activities and other issues involved in maintaining a quality service, thus reflecting the needs of the community and our community involvement.

Educators will provide an environment that is always friendly, respectful, welcoming and supportive, so that children and parents feel comfortable, allowing for open communication and good relations. They will encourage socially acceptable behaviour by being positive "role models" and implementing the behaviour guidelines that have been developed together with stakeholders.

Kids Crazy Maze is dedicated to a healthy and sustainable future. Our aim is to educate children and families on the importance of sustainability and respect for our environment and resources and how to care for the world we live in. Educators will teach children to be more aware of their environment through discussion and practice. Educators will demonstrate and implement these practices and encourage children to do likewise.

The service abides by all relevant government legislation and guidelines and these are updated as required. All staff are experienced and/or trained in first aid, child protection, WH&S, health and hygiene practices and other related areas concerning the education and care of school aged children set out by the National laws, regulations and Centre policies.

Outcomes:

Have a strong sense of identity

KCM aims to build a sense of belonging and teach children to develop and build strong relationships where they feel accepted and supported by Educators and their peers. Educators will provide a safe environment where children feel accepted and safe in order to becoming confident communicators and build on their skills in self-regulation, negotiation and conflict resolution and demonstrating behaviours that motivate and encourage children to succeed when faced with challenges.

Be connected with and contribute to the world

KCM aims to teach children to be socially responsible and show awareness and respect for their environment and sustainability.

Have a strong sense of wellbeing

KCM aims to teach children to show self-regulation and manage emotions in ways that reflect the feeling and needs of others by showing care, understanding and respect for all.

Be confident and involved learners

KCM aims to teach children to use reflective thinking to consider why things happen and what can be learnt from these experiences by encouraging children to communicate and make visible their ideas and theories, collaborate with children and model reasoning, predicting and reflecting process and language.

Be effective communicators

KCM aims to teach children to convey and construct messages with purpose and confidence, including conflict resolution and following directions by modelling language and encouraging children to express themselves through language in a range of contexts and for a range of purposes including leading and following directions

National Quality Framework

A National Quality Framework (NQF) and National Quality Standard (NQS) was introduced on January 1 2012 creating greater consistency for care services across Australia that sets a new national benchmark for the quality of education and care services.

National Quality Standard

The National Quality Standards are divided into seven Quality Areas:

1. Educational program and practice
2. Children's health and safety
3. Physical environment consultation
4. Staffing arrangements
5. Relationships with children
6. Collaborative partnerships with families and communities
7. Governance and Leadership.

The National Quality Standard aims to promote:

- the safety, health and wellbeing of children
- a focus on achieving outcomes for children through high-quality educational programs
- families' understanding of what distinguishes a quality service.

KCM, overall, is currently working towards the National Quality Standard and has been working hard with a goal of improving each standard.

For more information about the National Quality Framework go to www.acecqa.gov.au or talk with the staff.

Child Care Subsidy

Child Care Subsidy (CCS) is paid by the commonwealth Government to assist families to cover the cost of childcare.

The Commonwealth Government entitles each child 42 Allowable Absences each financial year.

Each day the child is absent will subtract from the 42 allowable absences. These absences include illness without doctor's certificate, annual leave and occasional absences. When all allowable absences have been used, full fee will be charged when the child is absent and CCS will not be calculated.

To have CCS rates applied you must ensure that we have the registered parents Date of Birth and a Centrelink Customer Reference Number (CRN) and each child's CRN.

Full fee will be charged until your CCS enrolment is completed and percentage rates are in place.

If you do not want fee reduction applied at time of use but wish to claim at the end of the financial year we still require yours and your child's CRN.

If you do not want to provide this information you will be required to advise us in writing to be kept on your file.

It is parent's responsibility to ensure that your CCS is being applied correctly. If it is not correct please bring it to the attention of the coordinator as soon as possible. If your CCS is not correct please ensure that your name, your child's name and both birth dates are correct.

Please note: If you are booking all five days a week for vacation care there is a chance you may go over your allocated hours for subsidy. Please speak to the Coordinator for further clarification.

The Family Assistance Office provides Child Care Subsidy (CCS) for most families to help with the cost of Outside School Hours Care including Vacation Care. Assistance cannot be given unless the Centre is supplied with yours and your child/ren's CRN and your date of birth.

To apply or get more information regarding CCS parents need to contact the Department of Human Services (DHS) on 136150 between 8am and 8pm or log onto my.gov.au, as soon as possible. The department will assess your application and decide the amount of assistance you will receive.

A weekly menu incorporating children's input adds to our extra daily food e.g. – Winter Warmers - cauliflower & macaroni cheese, pumpkin butter chicken, and fried rice etc.

Late snack (served after 5.15pm):

Specials may include a variety of foods that the children may have prepared as part of the afternoon activities or a snack. All precautions to the best of our ability are taken regarding allergies and special food requirements.

Due to nut allergy alerts KCM refrains from providing known nut products to children where possible. Parents must advise staff of any allergies to food and/ or special dietary requirements (a personal action plan signed by a doctor is required for serious food allergies)

While Kids Crazy Maze does not claim to be a 'Nut Free' we are Nut Aware and ask parents to refrain from sending their children with food products that contain nuts

Vacation Care

As of April 2020 all food and drink will be provided during vacation care.

In consultation with parents KCM has decided to provide food during vacation care. This will include **breakfast / morning tea – served from 7.30am – 10.30am**, lunch and afternoon tea. A late light-snack may be provided on request by the child/ren for those still at the Centre after 5:15pm

Personal Belongings

Children are not to bring mobile phones or other electronic devices to the Centre. If you need to get in touch with your child please phone the Centre on 02 6584 0260 and we can pass a message or inform the staff that you wish to speak with your child.

Children should not bring their toys, games or other personal items to before, after school or vacation care. Personal items will be confiscated by an Educator and return to parent at pick-up time. Centre's staff will **NOT** accept any responsibility for any loss or damage of children's personal items.

Excursions

Excursions are organized as part of the Vacation Care weekly program. We reserve the right to cancel any excursion if reasonable attendance is not reached or there are unforeseen circumstances, such as bad weather and other events.

If a child displays inappropriate behaviour before or whilst on an excursion, a parent may be called to collect their child and a guardian may be required for excursions in the future.

On excursion days children are required to be at the Centre ½ hour prior to the departure time as shown on the program. We will **NOT** wait for children who have not arrived at the Centre by the time the bus is due to leave.

There will be **NO REFUND** if you are not at the Centre by the time the bus is due to depart. There are no facilities for children to stay behind at the Centre. Swimming excursions to pools may be organized in warmer months for children. Parents must sign a permission note declaring their child can or cannot swim 25 metre confidently. If a child cannot swim this distance they will be excluded from swimming. Educator/child ratio for excursion are 1:10 and 1:5 for swimming or water excursions.

Behaviour

Children attending the Centre are expected to maintain acceptable behaviour standards and abide by the Centre's behaviour guidelines. The staff will, in the event of a child not conforming to these standards and rules, advise the parents in the first instances that appropriate disciplinary action has or may be taken.

Should the problem persist the following procedure will take place:

- 1: The Coordinator will consult with the parent. The child will be assisted to develop strategies to improve their behaviour.
- 2: The Coordinator will consult with the family and offer strategies to overcome the issues causing concern.
- 3: For ongoing/persistent unacceptable behaviour the child may be suspended from Centre for a period of time.
- 4: The family may be expected to seek professional assistance. Professional Support Plan may be required prior to the child returning to the Service. (The family is responsible for providing this information to the service prior to the child attending the service again). The coordinator will take the matter to the committee and or Board for review.
- 5: The Coordinator will consult with the family to discuss Termination of the child's position and recommend other systems that may meet their need better than the Community OOSH Service.

Dangerous Behaviour

The health, safety and wellbeing of all children and staff is paramount. In the interest of the child and other children at the service, removal is sometimes the only step that can be taken. If an incident is deemed "critical" by the Coordinator, instant removal will be considered without the previous steps being put in place. Parents will be contacted immediately. Families may be referred to support or other appropriate services.

In the case of physical violence, an immediate 48 hour withdrawal may be issued in order to keep staff and other children at the service free from harm.

We hope that the parents give us full support in these matters and explain to children the role of the staff at our Centre. We are responsible for the safety of your and all children, therefore acceptable behaviour is essential. KCM service adopts, encourages and reinforces positive behaviour with appropriate encouragements and actions to enhance positive behaviour whilst attending our service.

Behaviour Management Used by Our Staff

- Remain calm and choose our words carefully.
- Take the child aside and discuss with them which rule was broken.
- Never discipline before a group especially with a serious problem.
- Wait until the child has calmed down before discussing the problem.
- Encourage the child to look at alternative ways of behaving or getting their needs met that are acceptable.
- Emphasise that it is the child's behaviour that we do not like, not the child.
- Encourage the child to take responsibility for his/her own behaviour.
- If quiet time is used it should allow withdrawal from the situation, not as punishment (children still need to be where staff can see them)
- In an aggressive situation, remove the children involved and allow a quiet time to cool down, away from each other and then speak to the individual children about preventative measures and follow the behaviour management plan.
